**FISCAL ANALYSIS**

**ASSUMPTION**

Officials from the **Office of Attorney General, Office of Prosecution Services**, and the **Department of Public Safety** assume the proposed legislation would have no fiscal impact on their agencies.

Officials from the **Office of State Courts Administrator** would not expect a significant impact on the workload of the courts.

Officials from the **Office of State Public Defender** assume they could provide representation for those cases arising where indigent persons were charged with the offense(s) outlined in this proposal. However passage of more than one similar bill would require the State Public Defender System to request increased appropriations to cover cumulative costs of representing the indigent accused in the additional cases.

In response to a similar proposal, officials from the **Department of Corrections (DOC)** assumed they were unable to determine the number of people that would be convicted under the provisions of this proposal to estimate the potential need for additional capital improvements. Estimated construction cost for one new medium-security inmate bed is \$48,300 (a maximum-security inmate bed is \$55,000.) Utilizing this per-bed cost provides for a conservative estimate by the DOC, as entire facilities and/or housing units would have to be constructed to cover the cost of housing new commitments resulting from the cumulative effect of various new legislation, if adopted as statute.

New commitments which may result from the creation of the offense(s) outlined in this proposal cannot be accurately determined. In addition, changes in penalty provisions for current crimes could result in additional costs due to new commitments and/or longer sentences. The utilization of these laws for both new offenses and enhanced penalties for current offenses depend upon actions of prosecutors and the courts.

If additional persons are sentenced to the custody of the DOC due to the provisions of this legislation, the DOC will incur a corresponding increase in operational costs either through incarceration (average of \$35.61 per inmate, per day) or through supervision provided by the Board of Probation and Parole (average of \$2.47 per offender, per day).

Due to the wide variance of crimes and punishments including newly created crimes and punishments, the fiscal impact as it relates to the DOC is unknown, but not estimated to exceed \$100,000 annually.

FISCAL IMPACT - Small Business

No direct fiscal impact on small businesses would be expected due to this proposal.

DESCRIPTION

The proposed legislation creates the crime of eluding a law enforcement official by use of a motor vehicle. A person commits the crime if the person attempts to elude a law enforcement official who has probable cause to believe a crime has been committed by ignoring visual or audible signals from a clearly marked law enforcement vehicle that directs the person to stop. Eluding a law enforcement official by use of a motor vehicle is a class D felony.

This legislation is not federally mandated, would not duplicate any other program, and would not require additional capital improvements or rental space.
